

2026 Collection

DESIGNED & MADE IN TEXAS

As surprising as it might seem, we're not sound masking or acoustic design people. We're solutions people. Our founder, Bruce Davidson, is an entrepreneur who believes in helping solve problems. Whether that was how to bring the best farm-fresh eggs to his community as a young man, or design industry-leading acoustics and sound masking systems, it's all about solving problems in a creative way.

Over the years, MPS has developed into a leader in acoustics and sound masking, but at our core, we'll always be solutions people. If you need a partner who is willing to help design unique solutions, you've come to the right place!

THE MPS WAY

At MPS, our goal is to be extraordinary. This is only achievable with exceptional people and culture. With that in mind, we have 29 Fundamentals that guide us. Want to learn more? See the MPS Way at mpsacoustics.com/about.

TIME TO GET CREATIVE

Where design and American craftsmanship intersect. No detail is too small. "Good enough" is never enough. Form and function should always be in balance. Perfection and precision are a must. Simplicity and performance are critical.

The Lab at MPS specializes in bringing ideas to life. From custom architectural solutions to acoustic sound dampening products, our team thrives on the creative process of designing with our clients and partners. Whether it's a modification of an existing product to help meet a spec, or an all-new design, our team is ready for the challenge.

YES.

FIND A WAY

We're "yes people". Where others are forced to live within limits, corporate policy, and excuses, MPS has the freedom to simply say, "let's find a way".

SHADES by MPS

IT'S A COLORFUL WORLD IN HERE

Your design world revolves around color, so don't be limited by standard colors and outdated palettes. We've distilled years of testing into a three-tier system that protects print quality and design intent. Flat or Heathered? Your choice.

*Some limitations apply. Consult your MPS Acoustics expert to discuss your project.

SOUND MASKING
A DESIGN-ORIENTED APPROACH
BY THE ACOUSTIC EXPERTS.

WHAT TYPES OF SPACES SHOULD USE SOUND MASKING?

Open Offices

Private Offices & Meeting Rooms

IT'S NOISY OUT THERE

With so many acoustical options available in the marketplace, it is important to choose a company who can focus on both proper design and performance.

Our acoustic experts take a design-oriented approach. We offer complimentary sound masking system design layouts, tailored specifically to your space.

KEEP THINGS FUN

While our passion for excellence is real, remember that the world has bigger problems than the daily challenges that make up our work. Stuff happens. Keep perspective. Don't take things personally or take yourself too seriously. Laugh every day. Remember, there is no tiger.

DELIVER LEGENDARY SERVICE

It's all about the experience. Do the little things, as well as the big things, that blow people away. Make every interaction stand out for its helpfulness. Create the "WOW" factor that turns customers into raving fans. This includes both internal and external customers.
