# DECO

felt wall

MPS™

HOW TO SPECIFY

Re-think, re-design, reveal what a wall can be with Deco. The precise geometric pattern adds intrigue to any space, while also exposing a carefully curated secondary color. Reduce unwanted noise and echo with Deco acoustic felt walls.
Available in over 30 colorways.

SHADES by ⬗ MPS™

Your design world revolves around color, so don't be limited by standard colors and outdated palettes. SHADES offers Pantone options, full-color prints, and unique gradients. Flat or Heathered? Your choice.

*Some limitations apply. Consult your MPS acoustics expert to discuss your project.

PRODUCT INSTALLATION

## TOOLS REQUIRED

Cutting tool

Steel straighedge

Drill

Hole saw

Construction adhesive

DRY FIT

Before applying adhesive, dry fit the first panel to the wall.

Note: to avoid irregularity, we recommend applying to the top of a baseboard.

PRODUCT INSTALLATION

## APPLY CONSTRUCTION ADHESIVE (RECOMMENDED)

With acoustic enhancers

Without acoustic enhancers

HOOK Z-CLIPS (ALTERNATIVE)

Determine the desired position of z-clips and screw them into the back of the panel.

TRIM AS REQUIRED

Trim panels along the end to fit using a straight edge and cutting tool.

TRIMMING HOLES

When cutting a circular hole use a hole saw, and run it backwards to minimize pulling.
