

TAP

ceiling grid tiles

INSTALLATION GUIDELINES

Tap Acoustic Ceiling Grid Tiles are easy to install. Each tile should be mounted to the ceiling using included drop-in tiles with reinforcing strips or magnets.

TOOLS REQUIRED

Drill

Screws (provided by MPS)

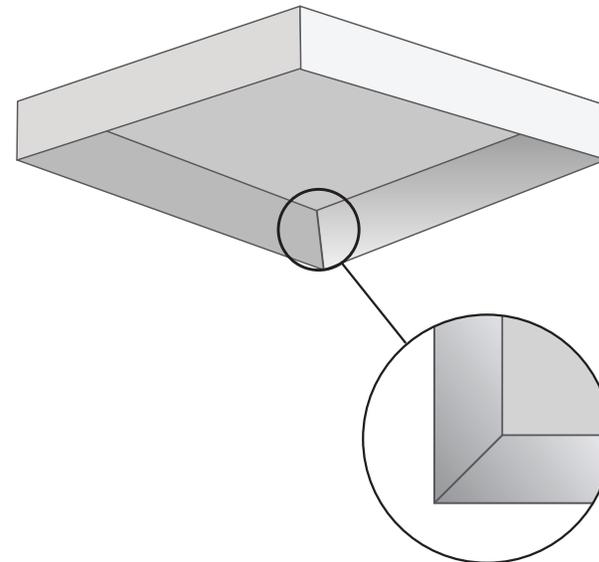

Magnets (provided by MPS)

Installers should rely upon their own professional experience and understanding of their unique requirements to ensure a successful install.

INCLUDED

Quantity and size tiles specific to your project.

*Upward view of tile showing inward bevel

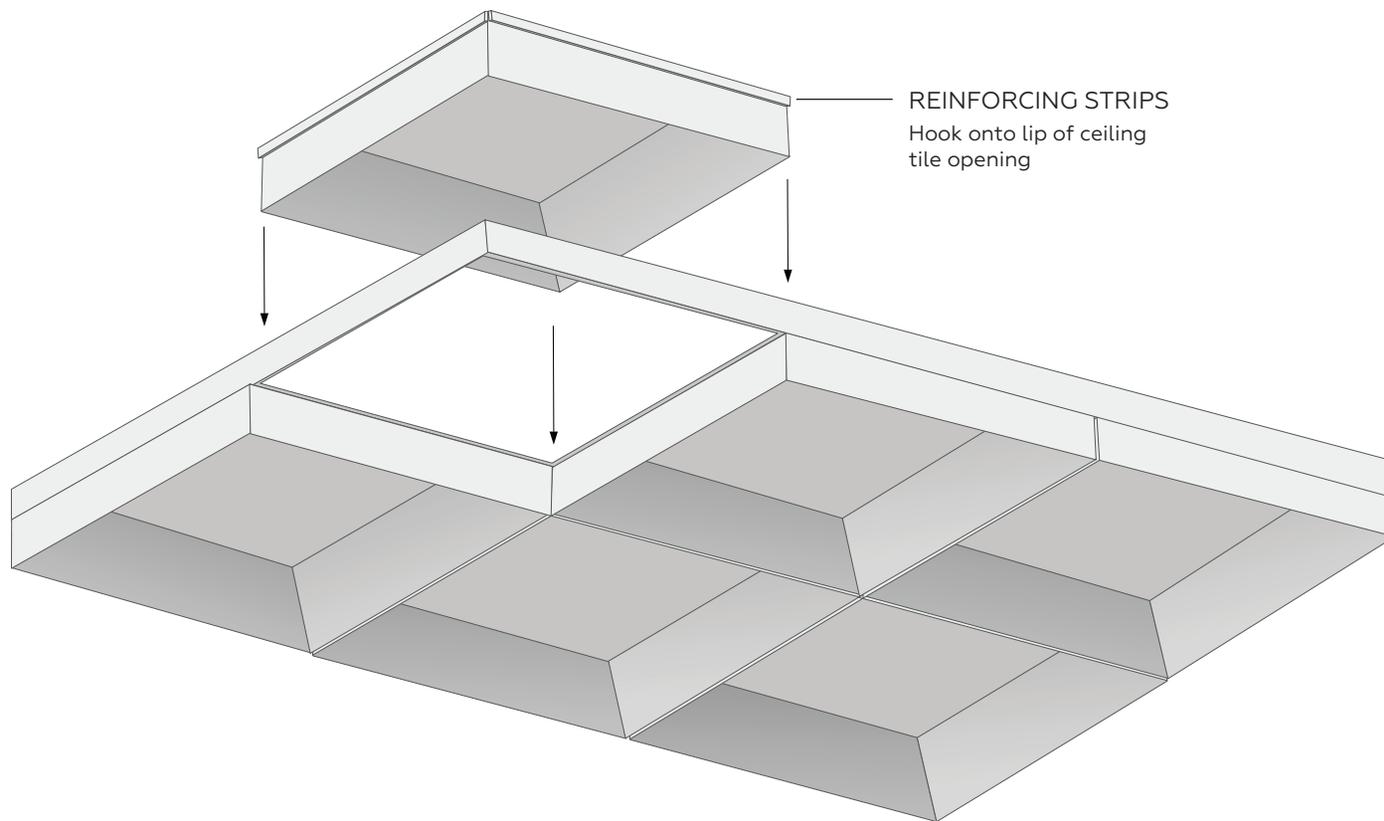

INSTALLATION GUIDELINES

DROP-IN TILES ON T-GRID

Replace ceiling tiles with Tap by dropping the tiles in and hooking them to the lip of the opening.

Compatible with 9/16" and 15/16" t-grid ceilings.

Note: The t-grid is visible with this application.

INSTALLATION GUIDELINES

ATTACH MAGNETS AND CONNECT TILES TO T-GRID

1. Screw magnets into the tabs on each Tap tile.
2. Connect the tiles to the t-grid ceiling in the desired arrangement.

Compatible with 9/16" and 15/16" t-grid ceilings.

Note: The t-grid is NOT visible with this application.

Note: Pull off of 50lbs per magnet.
